

TOOLCHAIN MATURITY ASSESSMENT.

IDENTIFYING GAPS, OPPORTUNITIES FOR CONSOLIDATION, AND COST SAVINGS

This workshop is designed to identify gaps and inefficiencies within your current toolchain, offering **actionable insights** and best practices for optimization. By highlighting opportunities for **consolidation and cost savings**, this assessment not only enhances the maturity of your DevOps practices but also delivers strategic recommendations to **streamline operations and reduce expenses**.

Partner with iTMethods to elevate your DevOps toolchain, ensuring a more secure, efficient, and cost-effective approach to software delivery.

COMPONENTS OF THE WORKSHOP

TOOLCHAIN INVENTORY AND MAPPING

- Conduct a detailed inventory of your current DevSecOps tools.
- Map out the entire toolchain, including integrations and dependencies.

MATURITY ASSESSMENT

- Evaluate the maturity of your current DevOps Tool practices against industry best practices.
- Assess areas such as automation, integration, application security, release management, software currency, uptime, disaster recovery, etc.
- Use the **iTMethods Toolchain Maturity Model** to rate each aspect relative to our current customers and industry standards.

REPORT AND ROADMAP

- Deliver a comprehensive report summarizing findings, gaps, and recommendations.
- Provide a roadmap for implementing the recommended improvements, including quick wins and long-term strategies.

GAP ANALYSIS

- Identify gaps in the current toolchain and processes.
- Highlight missing best practices and tools that could enhance your DevOps maturity.

COST SAVINGS OPPORTUNITIES

- Provide actionable recommendations for optimizing costs, while maintaining or enhancing performance.

BEST PRACTICES RECOMMENDATIONS

- Provide tailored recommendations to address identified gaps.
- Suggest best practices for toolchain integration, automation, and security improvements.

TOOL CONSOLIDATION STRATEGY

- Where applicable, recommend a strategy for consolidating tools to reduce complexity and improve efficiency.
